

Dear Trade Exhibitor

106th Ashby Show - Sunday, 12th July, 2020

GENERAL TRADE STAND DETAILS

The 2020 Ashby Show will be held at Cattows Farm, Heather on Sunday, 12th July and we thank you for your continued support or for showing an interest in attending this year's event.

Ashby Show is a traditional one-day agricultural show and with an average attendance of 15,000 is considered to be one of the best in the country. It retains strong links with agriculture and helps to promote a link between town & country. It is an ideal platform to increase your sales, build brand awareness and profile and showcase your product or service. Having a trade stand at Ashby Show gives you the chance to meet your existing customers face to face and reach your target audiences in the region.

A wide range of entertainment and displays is being arranged again and all the traditions of a country show. Our livestock classes remain a very important feature and these along with all the other side attractions will provide something for everyone attending the show and - for you the exhibitor - provides an extremely good market place for the promotion and sale of a wide variety of goods to the farming and general public.

As usual all our 2019 exhibitors will have priority to retain their stands for 2020, provided their application form and payment is received by **1st March, 2020**. After that date, all suitable applicants will be considered. Please study the Price Guide and our Terms & Conditions and please make sure that you comply with current rules & regulations. **All exhibitors MUST complete and sign the Risk Assessment & Fire Risk Assessment form and return this with their booking forms.** Unfortunately, we will not be able to accept any applications without this form or remittance.

When selecting your stand size, you must take into account any guy ropes, units or vehicles parked that will be part of your stand. **For health and safety reasons, no petrol generators will be allowed on the showground.** Electricity is available in most areas provided it is booked in advance.

Ashby Show is going from strength to strength and we look forward to receiving your booking and seeing you at the 2020 Show. If you require any further information or wish to discuss space availability or sponsorship opportunities, please do not hesitate to contact the Show Office.

Yours sincerely

Jane Harding

Exhibitors must conform to the Regulations relating to the transport of petroleum and the precautions to be taken against fire. e) Exhibitors of chainsaws may only give working demonstrations if special permission in writing is given by the Secretary. Such demonstrations must have adequate barriers to keep the public at a safe distance (at least 2 metres). The Society reserves the right of inspection by one of its Officials or a representative of the Civilian Fire Service of all marquees, stands and occupied areas, to ensure maximum safety against fire. Any decision made by the Society on the matters must be accepted as final. The Officials shall have the full authority to order the use of any appliance(s) or equipment to be discontinued immediately if in their opinion this constitutes a danger. c) Exhibitors will realise that these precautions are necessary in the interest both of themselves and the general public. d) Exhibitors must insure against fire, not only as regards their own property but against Third Party Claims.
22. **Disclaimer of Liability:** The Show, its' Officers or Servants shall not be responsible for any accident, damage or loss, however caused, that may occur to any exhibitor, or his servant, or to any article, animal or property brought into the Showground, or while entering or leaving the Showground. Each exhibitor shall be solely responsible for any loss, injury or damage that may be done to or occasioned by, arising from any machinery or other article, or any animal, or property exhibited by him. Risk Assessment Guidelines

Guidelines for Trade Stand Exhibitors, all of who **MUST** complete the Risk Assessment & Fire Risk Assessment forms and return with their applications.

Using the guidelines show below please consider what risk there is to those building up Trade Stands and to members of the public during the Show. Outline the steps you propose to take to minimise that risk on the Risk Assessment form.

HAZARD (please use as a guide to complete 'hazard' column on risk assessment form)	
Look only for hazards, which you could reasonably expect to result in significant harm under the conditions in your workplace. Use these examples as a guide.	* Slipping/tripping hazards * Chemicals (e.g. Battery acid) * Moving parts of machinery (e.g. Blades) * Work at height (e.g. from mezzanine floors) * Pressure systems * Vehicles (e.g. fork-lift trucks) * Electricity * Dust (eg from grinding) * Fumes (e.g. vehicle engines) * Manual handling * Noise * Livestock on stand * Lifting operation
Fire Hazard	Combustible materials (rubbish, flammable substances, LPG etc) and ignition sources (flames, smoking etc)

WHO MIGHT BE HARMED? (Please use as a guide to complete 'persons at risk' column on risk assessment form)	
There is no need to list individuals by name – just think about groups of people doing similar work or who may be affected, eg	<ul style="list-style-type: none"> • Office staff, Maintenance personnel, contractors • People sharing your work place – Operators, cleaners, members of the public <p align="center">Pay particular attention to:</p> <ul style="list-style-type: none"> • Staff with disabilities, visitors, inexperienced staff • Lone workers – they may be more vulnerable

Is more needed to control the risk? (Please use as a guide to complete 'controls to minimise risk' column on risk assessment form)	
For the hazards listed, do the precautions already taken:-	
* Meet the standards set by a legal requirement? * Represent good practice	* Comply with a recognised industry standard? * Reduce risk as far as reasonably practicable?
Have you provided:-	
* Adequate information, instruction or training? * In case of fire, a means of escape - Fire evacuation plan	* Adequate systems or procedures? - Fire detection and alarms - Fire fighting equipment

All electrical equipment used on the show ground must be Portable Appliance Tested (PAT). Any equipment found by the electrical contractor or society officers to be defective/non-compliant will cause power supply to be removed without refund.

Sizing of cables and distribution equipment is based on the power requirement stated on the Electricity booking form submitted by each potential consumer. For this reason once each application has been accepted no additional load shall be permitted on the installation without prior consent of the contractors and only when additional capacity is available.

Every effort will be made to provide an uninterrupted power supply. However, no liability will be accepted for consequential loss or damage due to power failure.

Completion of an Electricity supply booking form does not bind the Company to offer a supply. A repayment will be made if it is not possible to provide a supply. Any items not installed or not working must be brought to our attention on the day of Show. Any loss or damage caused to this equipment will be charged to the stand holder.

Payment for the supply of power will be required with the electricity supply booking form. Bookings for electricity supply should be sent with the Trade Stand application form.
